

Characters

Mylo Ziggs

A hopeful, self-made Tuner with big dreams and messy execution. Mylo didn't grow up in the GearBorn world—he forced his way in.

He's always a step behind: late to races, second-guessing himself, trying to prove he belongs. But what he lacks in polish, he makes up for in heart. Mylo connects—with people, with GearBorn—and that empathy might be the edge no one sees coming.

He's chasing greatness... even if he trips on the way there.

Cha Cha Spindell

The gold standard of a Tuner—and tired of being treated like a legacy.

Daughter of legends Mack and Sloane Spindell, Cha Cha has spent her life at the top. Not because of her name—but because she earned it. Still, no victory feels like her own.

Once Mylo's closest friend, she now sees him as someone wasting an opportunity she had to fight for. Driven, disciplined, and relentless, Cha Cha isn't just trying to win—

She's trying to prove she never needed anyone else to get there.

City Bosses

1. Rev-rend

City: Indianapolis, USA

GearBorn: Crusadome (#298)

Lore

A preacher of speed and salvation—with a collection to match.

Rev-rend built his empire on one promise: give him your GearBorn, and he'll lead you to greatness. In reality, he hoards power behind a wall of charisma and spectacle.

Blending Indy 500 energy with full-blown revival theatrics, his races are as much performance as competition. Every sermon, every lap—it's all part of the show.

But behind the gospel is a man who's lost sight of what he ever believed in.

2. Karen

City: Berlin, Germany

GearBorn: Baroness (#296)

Lore:

Precision. Control. Perfection.

Karen runs Berlin like a system—and she is its architect. Every move is calculated, every race executed with ruthless efficiency. She doesn't just follow rules—she weaponizes them.

What others see as rigidity, she sees as mastery. She didn't inherit power. She built it—step by step, detail by detail.

In her world, chaos isn't exciting.
It's failure.

3. Samir

City: Dubai, UAE

GearBorn: Shamacht (#153)

Lore:

Born into luxury. Raised without limits. Driving someone else's dream.

Samir is the son of a powerful tycoon, surrounded by wealth but disconnected from reality. His charm is real—but so is his naivety.

Forced to race with Shamacht, a GearBorn chosen for him, Samir secretly bonds with another—one his father dismisses as unworthy.

He smiles, he jokes, he plays the part.
But underneath it all, he's waiting for someone to finally beat him—

So he can choose his own path.

4. Thais

City: Rio de Janeiro, Brazil

GearBorn: Inflewenze (#251)

Lore:

An influencer with millions watching—and no one seeing the full picture.

Thais built her fame on beauty, charisma, and control. But none of it was accidental. Every post, every move—it's all strategy.

People underestimate her. That's the point.

On the track, she's ruthless. Off the track, she's untouchable.
She doesn't chase attention—

She uses it.

5. Jimmy Chin

City: Los Angeles, USA

GearBorn: Hurrdaboutis (#305)

Lore:

A legend of yesterday... still fighting to stay on screen.

Jimmy built his name on charm, familiarity, and mass appeal. He's the guy everyone knows. The voice everyone trusts.

But the world is changing—and Jimmy isn't.

He sticks to what works: classic cars, classic lines, classic tricks. Because adapting means risking everything.

And Jimmy Chin doesn't want to be forgotten.

6. Rip Lee (Real Name: Jia)

City: Seoul, South Korea

GearBorn: Matunnie (#093)

Lore:

A superstar on the track. A stranger to herself.

Rip Lee is a full-blown performance—pink wigs, flashing lights, and K-pop perfection. She becomes whatever she idolizes.

But off the track, she's Jia. Quiet. Uncertain. Still figuring out who she is without the spotlight.

Racing is where it all clicks.
Where identity becomes instinct.

Where she finally feels real.

7. Jabu

City: Cape Town, South Africa

GearBorn: Kuumbusta (#301)

Lore:

A builder. A dreamer. A racer shaped by what he *didn't* have.

Jabu creates from scraps—turning discarded parts into something powerful, something beautiful. His work is rooted in Afro-futurism: past, present, and future fused into motion.

He doesn't just race to win.

He races to prove that vision matters more than resources—and that legacy isn't inherited.

It's built.

8. Pallavi

City: Bangalore, India

GearBorn: Kermajesty (#233)

Lore:

Grace in life. Fire on the track.

Pallavi lives between two worlds—honoring tradition while chasing her own ambitions. Her future is mapped out, supported, expected.

But behind the wheel, she's something else entirely.

Focused. Fearless. Unstoppable.

She may not know what her life will look like tomorrow—
But today?

She's racing to win.

9. Racer Alpha

City: Space

GearBorn: Hornula1 (#327)

Lore:

No name. No past. Just speed.

Racer Alpha is a myth made real—the fastest racer in existence, hidden behind a mirrored helmet that reveals nothing.

No one knows who he is.

No one knows where he came from.

Only one truth exists:

If you beat him...

You earn the right to find out.
